DETAILED ACTION

This action is responsive to applicant's RCE filing of 2/19/2008.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The examiner notes that the correction that appears below merely combines the two paragraphs of the abstract submitted by the applicant. This is to conform to the requirement that the abstract be one paragraph. The applicant's representative was overseas, but this amendment was approved by Mr. McKewan, another attorney at the firm of OBLON, SPIVAK, McCLELLAND, MAIER & NEUSTADT, P.C.

IN THE ABSTRACT - the abstract is replaced with the following:

An electronic value transferring device such as a high speed and large capacity computer or mobile terminal device is disclosed that can function as a contactless IC card performing electronic value operations. The device is connectable to an IC card that performs electronic value operations, and includes a microprocessor for transmitting and receiving data to and from

the IC card: an interface circuit for providing an IC card interface to allow the IC card to send and receive electronic values to and from other IC cards by radio; an antenna; and the microprocessor having a memory for temporarily storing plural electronic values.

Allowable Subject Matter

Claims 7-14 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or fairly suggest an arrangement whereby an electronic value transferring device performs a value transferring operation such that there is wired (contact-based) data exchange with an IC card, and wherein the transferring device has a wireless interface including an antenna and wherein the transferring device allows an IC card to receive an electronic value from an electronic server and wherein the transferring device is arranged with a memory to temporarily store a plurality of electronic values and transfer the stored electronic values to another external IC card.

The prior art previously applied by the examiner, Korea 0249783, fails to clearly show both transfers with another card and with a server in the manner that is claimed.

One piece of relevant prior art, Martschitsch (US 6,223,026), teaches exchanging electronic value between a SIM card in a mobile phone (transferring device) and a server using the wireless capability of the phone the last line of the abstract is especially instructive. However there is no teaching or suggestion to transfer value from such a card to another card. This is particularly true since the card in Martschitsch is a phone card assigned to a particular user for a particular purpose and is not a generalized stored value card.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel A. Hess whose telephone number is (571) 272-2392. The examiner can normally be reached on 8:00 AM - 5:00 PM M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael G. Lee can be reached on (571) 272-2398. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
